Invitation Letter

المؤتمر العربي السادس لأمراض الدم

الإتحاد العربي لأمراض الدم
Pan Arab Hematology Association

Dear Colleague;

On behalf of the Kuwaiti Ministry of Health, and with the collaboration of the Pan Arab Hematology association, Saudi Society of Hematology and the European Hematology Association (EHA), we would like to invite you to participate in the upcoming “6th Pan Arab Hematology Congress” scheduled to be held on the 11th to the 13th of February, 2017 at the Kuwait Regency Hotel, given your expertise and vast knowledge in the field.

The Pan Arab Hematology Congress has become one of the most important annual gatherings in the Arab sphere in the past 5 years where experts and institutions interchange experience and knowledge.

The theme of the upcoming congress is “**Together we give the answers**”, which indicates that the answers behind debatable issues will be provided through collaboration between local, regional and international experts in order to present a high quality scientific program regarding currently evolving issues, as well as aiming to bring light over an array of hematological disorders in pregnancy, neonates, thrombosis, and bleeding, as well as hemato-oncology disorders. The conference program beside the high-profile lectures will also consist of mini-symposia, workshops, special sessions, and an exhibition.

Located on the tip of the Arabian Gulf, a unique part of the world where a remarkable culture stands alongside modern day development, you are most welcome to see the beauty of Kuwait and its people. We look forward to meet you in Kuwait, where you will explore a land with a deep-rooted culture. You will be received with warmth and hospitality, which will surely make your experience a memorable one.

Sincerely;

Dr. Najat Roohaldeen
Head of the scientific committee

N. Roohaldeen
